Hello there

Data analyst with five years in logistics and retail reporting. I turn messy operational data into weekly reports that managers act on, and I check every figure against its source before it goes out.

My Journey

Data Analyst, a freight company, Cape Town 2022 to now

- Built the weekly on-time delivery report in SQL and Power BI.
- Cut month-end reconciliation from three days to one.
- Trained four colleagues to maintain the reports.

Reporting Assistant, a retail chain, Cape Town 2019 to 2022

- Produced daily sales and stock reports for 40 stores.
- Found and fixed a double-counting fault in returns.

Where I Learnt

BCom Statistics, 2018

My Toolbox

SQL, Power BI, Python, Excel, Data cleaning, Reconciliation

How I Talk

English, isiXhosa, Afrikaans
